

Recommendation Letter

◆ Design Identity *Graphic Design Intern*

Tiffany Gozal had completed a graphic design internship at Design Identity Australia, completing approximately over 150 hours between the 5th of November 2018 and the 10th of January 2019.

With a basic understanding of Adobe programs, great communication skills and a can-do attitude, Tiffany held the required skills and knowledge to enter our internship program.

She engaged in a number of graphic design exercises and assisted with real life client briefs. Her tasks included deep etching, retouching, branding and graphic design work, social media updates, photography assisting, stock control and prepping items for shoots.

Tiffany demonstrated a willingness to learn all aspects behind running a creative agency and was very helpful during her time with us. We valued her efforts with many of the briefs we gave her and were impressed by the quality and speed at which she worked. We wish her all the best in her career path.

*Lorrina
Studio Coordinator*
